Introduction

Introduction and Purpose of the Policy Book

This CG-VAK Software and Exports Ltd. Employee Policy book establishes policies, procedures, benefits and working conditions that will be followed by all employees as a condition of their employment at the Company. The Standards of Conduct describe the expected actions and behaviors of employees while conducting Company business.

This Employee Policy Book is not a contract of employment nor is it intended to create contractual obligations for the Company of any kind. The policies and procedures outlined in this Policy book will be applied at the discretion of CG-VAK. CG-VAK Software and Exports Ltd reserves the right to deviate from the policies, procedures, benefits and working conditions described in this Policy book. Furthermore, the Company reserves the right to withdraw or change the policies, procedures, benefits, and working conditions described in this Policy book at any time, for any reason, and without prior notice.

The Company will make every effort to notify employees when an official change in policy or procedure has been made but employees are responsible for their own up-to-date knowledge about Company policies, procedures, benefits, and working conditions.

No provision in this employee Policy book and expected Standards of Conduct can be waived without written permission from the Company's Managing Director, or designee. Such a waiver, if granted, applies only to the employee for whom the waiver was granted at the time of the waiver.

CG-VAK Software and Exports Ltd strives to provide an employee-friendly environment in which highly qualified, committed, versatile and hardworking individuals thrive to provide high quality & cost effective solutions that help to leverage Information Technology and improve competitive advantage through improved services to the clients.

CG-VAK provides a place that helps employees and customers to focus all energy towards achieving excellence, both professionally and personally. CG-VAK is a place where an individual can speak up, speak out, and engage in valuable conversations across the board. Innovative spirit is deeply embedded in our ethos

Company History

CG-VAK is a multi million-dollar public limited organization, with over two decades of time-tested experience for clients across the globe. As a global software provider headquartered in India, CG-VAK employs over 220 professionals across the globe. We provide high quality & cost effective solutions that help you to leverage Information Technology, to improve your competitive advantage through improved services to your clients. Based on the three tenets 'Ideate. Innovate. Create' we help transform your businesses and organizations delivering Digital Innovation, Product Innovation, and Modernization at business speed.

IDEATE -We are a human 2 human organization. Our highly qualified, committed, versatile and hardworking team members are our greatest strength. From international technical certifications, and academic qualifications, to consistent internal training, bench marking and transformation, we ensure that our people (our idea generators) are at the leading-edge of technological and creative development and exposure — ensuring you have the best-in-class, best-in-category, best-in-business service.

INNOVATE- We are a process driven innovator. Endowed with a well-matured, dynamic process model and state-of-the-art infrastructure, we help to achieve economies of scale, translating efficiencies to produce greater value. Our standardization of services on defined, repeatable operational procedures ensures service level reliability. From business continuity and disaster recovery services, to creation and implementation of disruptive digital products, we always put process before profit.

CREATE - We are a global software specialist. Present in multiple locations in the US and India, we reach customers at farthest corners of the globe. Our localized teams, ensure global delivery and standards. From our people to our processes, We are always evolving, creating what matters most; ensuring Product Development, Prototyping, Product Migration, App Dev, mobility, analytics and web give the digital differentiation desired.

Company Mission

“Our business is providing IT solutions. Our specialty is providing software products & services. Our current focus is to serve clients in USA, CANADA, UK, AUSTRALIA, IRELAND, NEW ZEALAND, EUROPE, and INDIA. We are aware that our business existence and success depends on how well we meet our responsibilities to the customers, shareholders and our employees. Our first responsibility is to our customers. We anticipate and satisfy our customer needs in a professional manner

through very high quality products and services. Our success is dependent on meeting the customer's need better than our competitors. User-friendliness will be given importance in all products & services and our aim is to achieve highest level of professional excellence in the industry.

Our ultimate responsibility is to our shareholders. Our objectives are to earn optimum return on the capital employed and build a financially strong organization. We wish to maintain a steady growth in our profits. We feel a deep, personal responsibility to our employees. We are committed to a healthy environment where an employee is provided an opportunity to develop to his maximum potential. We expect to reward employees commensurate with their contribution to the success of the company.

We are committed to honesty and integrity in all relationship with our customers, business partners, suppliers and others whom we deal with. We recognize that there are always better ways to perform many functions. Continuous improvement in the way we do business is a daily objective of the entire organization.”

Company Vision

“Our Vision is to become a leading global software service provider by delivering superior solutions to enhance the competitive advantage of the client.”

Company Values

We are driven by the value system that has brought us this far. Our values make an impact on all those who are associated with us. i.e., our employees, our customers and our shareholders. Our values guide & motivate us for greater achievements.

- Conduct ourselves with highest sense of integrity.
- Enable employees to realize full potential and reward with wealth creation.
- Follow high level of professional and business ethics.
- Openness and being honest & transparent in all our dealings.
- Respect for the individual & value team work.

Company Quality Policy

(ISO Clause No. 5.2) CG-VAK is committed to provide Enterprise Application Software Solutions, Web Based Solutions, Mobile Application Solutions and Software Services to fulfill the customer requirements and strive towards customer

satisfaction through continual improvement in all our processes. To achieve this, we shall

- Impart training to improve the process to accomplish the above said objective.
- Comply with the applicable requirements of the interested parties.
- Achieve Total Customer Satisfaction by proactively seeking client's feedback and exceed their expectation.
- Identify improvements to existing work practices.
- Assuring employee engagement.
- Ensure effective Risk management.

The policy and requirements are communicated to all the employees working on behalf of the organization and interested parties to encourage their participation.

Suresh.G, MANAGING DIRECTOR

Information Security Policy

(ISO Clause No. 5.2)“CG-VAK is committed to protect the confidentiality, integrity and availability of its Information Assets and the information assets given by its interested parties.”

To achieve this, we shall:

- Ensure CIA is incorporated in all our process.
- Maintain an effective Information Security Management System.
- Bring in most appropriate technology and infrastructure.
- Create and maintain a security conscious culture within CG-VAK.
- Continually monitoring and improving the effectiveness of the Information Security Management System.
- Align the organization’s strategic risk management context for maintenance of the ISMS.
- Adhere business and legal, statutory, regulatory requirements, and contractual security obligations pertaining to information security.
- Periodically review the operational status of information security measures.

The policy and requirements are communicated to all the employees working on behalf of the organization and interested parties to encourage their participation.

Suresh.G, MANAGING DIRECTOR

Company Commitment to Employees

This chapter addresses the Company's commitment to providing a safe, high-quality work environment for its employees including management. The company commit to the following:

- Payment of fair wages compared to the national average and provide basic benefits
- Provision for enhancement and training and skill development of employees to help them perform better, get promoted or find alternative employment in cases of redundancies.
- Development of labour practices around human rights (including child and forced labour), firing/redundancy and disciplinary measures in compliance with international standards and suitable for local conditions.
- Respect employees' right of association and collective negotiation if they so choose.
- Ensuring work/life balance and provide flexible/part time working opportunities

Confidentiality Policy

In order for our staff to conduct company business and properly administer our own personnel procedures, we must gather and maintain certain private information. The purpose of this Confidentiality Policy is to set forth guidelines with regard to the collection, maintenance, use and disclosure of confidential information. All employees share the responsibility to ensure that proper security and confidentiality are maintained. Report any breach promptly to the Human Resource Department or to the concerned authority. Anyone who violates this policy will be subject to disciplinary action and possible legal recourse.

DATA BREACH: A data breach is the intentional or unintentional release of secure or private/confidential information to an untrusted environment. Other terms for this phenomenon include unintentional information disclosure, data leak and also data spill.

NON-DISCLOSURE OF CONFIDENTIAL INFORMATION

Any information that an Employee learns about the organization, or its members or donors, as a result of working for the organization that is not otherwise publicly

available constitutes confidential information. Employees may not disclose confidential information to anyone who is not employed by the organization or to other persons employed by the organization who do not need to know such information to assist in rendering services.

- Employee will not disclose, copy or reproduce any of the Organization's Confidential Information, data without the written consent of the organization.
- Employee will not disclose or use the client name or client contact person's name given by organization to anyone and in any of personal correspondence in any form i.e. oral or written.
- Employee will neither directly nor indirectly approach the client / prospect whether it is hot / warm or cold prospect after leaving employment with the organization.
- Employee will not disclose the pseudo name given by organization in any correspondence or in any form.
- Employee will not include the details regarding organization's client name, project name in their resume or in any of the social network websites or any other documents.
- Employee will not solicit for business or employment directly or indirectly with the client for a period of 5 years from the date of leaving services with the organization.

That in the event of failure / neglect to fulfill any of the terms of this undertaking or of any other form of breach of the same the Employee is liable to pay compensation to organization as per the agreement signed during date of joining. Failure to comply with the policies, terms and rules is liable to disciplinary action. The disciplinary action depends on the degree of the misconduct. Continuing acts of misconduct can even lead to employment termination.

General Employment Information

Employment Eligibility

The recruitment is initiated based on the New Job/ Replacement requirements listed in RRM Application by respective Department/ Project Managers. For each requirement, the minimum qualifications/experience and skills are listed in RRM. No person below the age of 18 years is eligible for working in the company. The minimum qualifications statement on the job announcement informs the applicant of the education, experience and other requirements for the position. Only those applicants whose applications demonstrate that they meet the minimum

qualifications and other criteria in the job announcement are verified to compete in the interview process.

Appointment policies

Every appointment would fall under one of the following categories

- New Hire : When you initially accept an appointment , you are considered a new hire. As a new hire, you will be required to serve probationary period of six months.
- Rehiring: When an ex-employee of the Company is rehired into the organization.
- Transfers: Transfers and relocations to the other branches across the country.
- Promotions: Promotion is advancement to a position that has higher grade than the position previously held.
